

# Python - USACO Bronze

Bronze level class is rigorous, intensive and specifically designed to target USACO competition, and focuses on problem solving, algorithms and data structures, and consistently delivers more advanced topics and contents. For students who wants to continue pursue USACO path, we strongly suggest taking our Level I & Level II first to have solid programming skill before starting USACO competition route

## Prerequisite

- Finish our Python Level 1& 2 course.
- **OR**, Intermediate Programming level. Students to be comfortable writing code in Python using functions, conditional statements, loops and array, and enjoy logical thinking and problem solving.
- **OR**, take our entry test by emailing [usacocoach2018@gmail.com](mailto:usacocoach2018@gmail.com)
- Pre-algebra level math is required

## Course Description

- **Bronze Core Course** is designed to focus on learning basic Algorithms. Provide intro level algorithm problem solving skill. Class time is 90 minutes/lesson
- **Bronze Practice Course** is designed to focus on most challenging USACO contest questions and provide best solution while learning algorithm. Class time is 90 minutes /lesson
- **Bronze Mock Course** is designed to focus on most challenging USACO contest questions and provide best solution while learning algorithm. Class time is 60 minutes /lesson
- **Bronze Enhance Course** is designed to focus on most challenging USACO contest questions and provide best solution while learning algorithm. Class time is 60 minutes /lesson

## Bronze Core Course Syllabus

1. Jump Start
2. Min-Max
3. Loop
4. Array
5. More Array
6. Static Method
7. Tree and Graph
8. String
9. Search and Sort
10. Simulation

## Course Details

- Use ZOOM for online video platform
- Class homework and video will be shared through google account. Student Gmail account is required
- Homework will be emailed to students after the lesson. Homework is required to submit through USACO official website [www.usaco.org](http://www.usaco.org)
